Summary

Frontend Developer specialized in Angular with experience in enterprise applications, modular architectures, and real-time systems. Currently contributing to the modernization of an airport operations platform for FINAVIA, focusing on scalability, performance, and maintainability.

Experience

Frontend Developer — Vippinn / Indra (Client: FINAVIA, Finland) | 2025 – Present

- Contributed to the modernization of a large-scale airport operations system using Angular 17 (roadmap to Angular 20)
- Developed features for flight and operational management systems
- Built and maintained reusable internal libraries (advanced data tables, filters, timezone handling, export)
- Implemented real-time data updates using WebSockets
- Worked with timezone-sensitive data in international environments
- Used reactive programming with RxJS for data handling and UI updates
- Collaborated in a modular and scalable architecture
- Wrote unit tests using Jasmine/Karma (80%+ coverage)

Projects

Kamak Desarrollos

- Designed and developed a full-stack platform with private admin dashboard (JWT authentication)
- Built complete CRUD system for project management (content, images, videos)
- Implemented search and filtering features
- Integrated interactive map using Google Maps APIs (Places & Geolocation)
- Developed scalable architecture connecting frontend and backend

Tech: Angular 19 · TypeScript · NestJS · Prisma · PostgreSQL · Google Maps API · Angular Material

ONG Valores para la Familia

- Developed modern, accessible and responsive platform
- Focused on usability and structured educational content
- Improved navigation and access to prevention resources

Tech: Angular · TypeScript · Tailwind CSS

JC Cosmetology

- Led project end-to-end (design → development → deployment)
- Built clean and responsive UI focused on conversion
- Optimized user flow and service presentation

Tech: Angular · TypeScript · Tailwind CSS

Tech Stack

Angular · TypeScript · JavaScript · RxJS · Tailwind · Angular Material · PrimeNG
State Management · REST APIs · WebSockets · Modular Architecture
Node.js · NestJS · Express · MongoDB · Firebase
Git · GitHub · Bitbucket · Jira · JFrog · Postman · Jasmine
